

# SNS Preparedness Course

---

June 8-9, 2004

---

Utah County Health Department Rm 1600

---

8:00 am – 5:00 pm

---

## **Workshop Description**

This hands-on workshop will provide an understanding of the SNS Program and individuals roles in the SNS Distribution Plan. The workshop will also include a Dispensing Practical Exercise. This participatory setting will promote communication and networking among partner agencies.

## **Learning Objectives**

Learning objectives: Upon completion of this workshop, participants will:

1. Gain an understanding of SNS Program
2. Be familiar with the responsibilities involved with security for the State SNS Program.
3. Know what to expect in receipt, storage and staging in the SNS dispensation plan.
4. Understand roles and responsibilities in Utah's SNS Distribution plan
5. Have a practical knowledge of dispensing by taking part in a practical exercise.

## **Target Audience**

Local Health Department Emergency Response Coordinators or one other staff member at the discretion of the Local Health Officer with a total of 2 staff per Local Health Department. We are allowing a third staff member from SLVHD due to their size. Representatives from Utah Department of Health staff, the SNS Subcommittee, Department Emergency Services and Homeland Security, and Native American Tribes.

## **Speakers**

TBD

## **What to Bring**

Please bring a copy of your agency's emergency response plans as a reference.
